Πανεπιστημιακοί Εταίροι

Università degli Studi di Padova, Università Iuav di Venezia, Πανεπιστήμιο Θεσσαλίας

Επαγγελματικοί Εταίροι

ANCE Padova, Assindustria Veneto Centro, Achab Srl, Bortoletto Serramenti Srl, Contec Ingegneria Srl, Fondazione Fenice, Foréma, Steam Srl

Εγγραφές

Το εργαστήριο είναι ανοικτό για φοιτητές από την Ελλάδα ή το Εξωτερικό, και πιο συγκεκριμένα για:

- Φοιτητές του 4^{ου} και 5^{ου} έτους των Σχολών Αρχιτεκτονικής
- Μεταπτυχιακούς φοιτητές αλλά με βασικό πτυχίο από Σχολή Αρχιτεκτονικής
- Πρόσφατοι απόφοιτοι (τελευταία τριετία) Σχολών Αρχιτεκτόνων Μηχανικών

Για την εγγραφή στο εργαστήριο πρέπει να στείλετε ένα e-mail στο fmicocci@arch.uth.gr με τα εξής στοιχεία σας **μέχρι τις 30 Ιουλίου**:

- 1) Ονοματεπώνυμο
- 2) Ημερομηνία Γέννησης
- 3) Προπτυχιακός/ή ή Μεταπτυχιακός/ή ή προσφάτως αποφοιτήσας/σασα
- 4) Σχολή
- 5) E-μαιλ
- 6) Τηλέφωνο

Η επιβεβαίωση της συμμετοχής σας θα σταλεί μέχρι τις **10 Αυγούστου**.

University Partners

Università degli Studi di Padova, Iuav Università di Venezia, University of Thessaly

Company Partners

ANCE Padova, Assindustria Veneto Centro, Achab Srl, Bortoletto Serramenti Srl, Contec Ingegneria Srl, Fondazione Fenice, Foréma, Steam Srl

Registration

The workshop is open to students from Greece and Abroad, in particular to:

- students at the 4th and 5th year of studies from Architecture Schools
- students of Master Programs in Architecture
- young professionals that obtained their degree in Architecture no later than three years ago

To participate please send an e-mail to fmicocci@arch.uth.gr with the following information **before July 30th**:

- 1) Name and Surname
- 2) Date of Birth
- 3) If you are an Undergraduate or Postgraduate student of when you obtained your diploma
- 4) School of reference/Affiliation
- 5) E-mail
- 6) Mobile phone

The list of the participants will be announced before **August 10th**.

Certification of participation

A certificate of participation will be released to all the participants of the workshop.

Introduction

In Greece tourism represents the major economic activity for what concerns the number of employees, for the general incomes for the state, and for the satellite-activities that it engenders. The economic crisis before, and now the Covid-19 pandemic crisis, have made urgent the necessity to re-think how the tourist sector works. It is evident how a new vision for the architecture of hospitality is needed, in order to promote and embed environmental issues in a broader way.

In particular, this workshop aims to face the theme of the re-use of abandoned hospitality buildings. These abandoned buildings should be understood as contemporary ruins that allow to test innovative and sustainable solutions in relation not only to promote hospitality, but also to the re-use of the existing assets. Those type of interventions should take into consideration the very context in order to take advantage of formal, technical and environmental potentialities and, at the same time, not to erase the history of a building and his character of ruin. Finally, this workshop aims also to investigate also how such intervention could be promoted and to the large audience.

Objectives

The workshop will focus on the case-study of the Xenia Hotel in Tsagarada, on the Pelion Mountain, around 1h from Volos. The hotel was designed in 1957 by Charalampos Sfaello (1914-2004), a student of Dimitris Pikionis, and since 2000 has been in a state of abandonment.

New scenarios for this building should investigate new ways of temporary dwelling, that should be flexible and inclusive and that, at the same time, should pay attention to the specific climatic and environmental conditions of a certain place. Moreover, students should take into consideration also the technical feasibility of the proposal that, eschewing any detailed investigation, should be though as something that will be easy to realize.

Therefore, the researchers involved in the S.O.L.E.H. project will participate as tutors due to their expertise in the field (climate, technology, energy and communication). Their involvement will be crucial in thinking architectural proposal into a feasible and practical context.

The final objective of the workshop is also to investigate strategies to communicate the results of these efforts to the local community – touristic sector, architects, public administrations, citizens – with the scope to stimulate a reflection in relation to envision about future scenarios for tourism as well as to challenge the possibility of the re-use of abandoned buildings.

Educational path

The workshop will last 6 days. During these days, students will develop a design project in relation to the re-use of some abandoned building of the region of Magnesia and to think about their future use for tourism. Seminars and lectures will support the design work of the students involved. Students will be supervised by a team of Professor, by Supervisors and by the four researchers of the project S.O.L.E.H.. Furthermore, the S.O.L.E.H. researcher with contributes with the development of four thematic axis related to construction, H/M systems, technology and communication, supporting the students with detailed information and guiding them towards the formulation and the realization of their design ideas.

Outcomes

The workshop and its activities will be announced on the website of the Department of Architecture of the University of Thessaly (TAM) and the one of the Department of civil Engineer-Architecture of the University of Padova, and on social media like Facebook pages and Instagram accounts. The workshop will be concluded with the organization of an exhibition at the exhibition space of the TAM and with a presentation of the students work. The results of the workshop, together with the other activities included in the project S.O.L.E.H., will be published on a book.

Coordination

Angelo Bertolazzi, UniPD
Fabiano Micocci, UTH

S.O.L.E.H. Scientific Board

Angelo Bertolazzi, UniPD, Principal Investigator
Fabiano Micocci, UTH
Giorgio Osti, UniPD
Nicholas Remy, UTH
Massimo Rossetti, Iuav
Aris Tsangrassoulis, UTH

Groups Supervisor

Stefanos Antoniadis, UniPD

Senior Tutors

Stefanos Antoniadis, UniPD
Efi Dimitrakopoulou, UTH
Dimitris Psychogios, UTH
Nicholas Remy, UTH

Junior Tutors

Elisa D'Agnolo, UniPD
Petra Muneratti, UniPD
Agata Tonetti, Iuav

Lectures

Kostas Adamakis, UTH
Giorgios Mastrominas, K-Studio
Luigi Stendardo, UniNA
Nicholas Remy, UTH
Efi Dimitrakopoulou, UTH
Stefanos Antoniadis, UniPD
Elisa D'Agnolo, UniPD
Petra Muneratti, UniPD
Agata Tonetti, Iuav

Day 1: Monday, August 30thMorning

- 9:30 Welcoming by Kostas Manolidis, UTH, Dean of the Dept. of Architecture
9:40 Introduction by Angelo Bertolazzi, UniPD, Principal Investigator S.O.L.E.H. project
9:50 Presentation by Fabiano Micocci, UTH, Workshop coordinator
10:00 Lecture by Kostas Adamakis, UTH
11:15 Lecture by Giorgios Mastrominas, K-studio
12:30 Organization in Groups

Afternoon

- 15:00 Group visit to the Xenia Hotel in Tsagadara, Pilios

Day 2: Tuesday, August 31stMorning

- 10:00 Group work

Afternoon

- 15:00 Group work

Evening

- 18:00 Lecture by Nicholas Remy, UTH
18:30 Lecture by Efi Dimitrakopoulou, UTH
19:00 Lecture by Stefanos Antoniadis, UniPD

Day 3: Wednesday, September 1stMorning

- 10:00 Group work

Afternoon

- 15:00 Group work

Evening

- 18:00 Mid-review
21:00 Dinner

Day 4: Thursday. September 2ndMorning

- 10:00 Group work

Afternoon

- 15:00 Group work

Evening

- 18:00 Lecture by Elisa D'Agnolo, UniPD
18:30 Lecture by Petra Muneratti, UniPD
19:00 Lecture by Agata Tonetti, luav

Day 5: Friday, September 3rdMorning

- 10:00 Group work

Afternoon

- 15:00 Group work

Evening

- 18:00 Lecture by Luigi Stendardo, UniNA

Day 6: Saturday, September 4thMorning

- 10:00 Finalizing Presentations

Afternoon

- 15:00 Final Review with jury and Exhibition

Evening

- 21:00 Closing Party
