## international documentation and design summer school

### URBAN LANDSCAPE / DESIGN and ARCHITECTURE

The 12th **Documentation and Design Workshop** will focus upon the environmental design and architecture of urban landscapes. Hosted by the **municipality of Serres** the projects will investigate the city's valley as an urban ecosystem, highlighting cultural and natural characteristics of the location. All groups will be accommodated at the facilities of the Chrysopigi Summer Camp, at the peak of the Menikion Mountain close by the city of Serres. Participants will be students (4th and 5th year of studies and post-graduates) and teaching stuff of the Universities of **CairoEgypt**, **SofiaBulgaria**, **VolosHellas**(U.Th), **IstanbulTurkey** (I.T.U.) and **BelgradeSerbia** (University of Bergrade).

Locations of study at the east edge along the valley of Agioi Anargiroi include:

1. The surrounding area of the **Mehmet Bey Mosque** including the fountain and the bilateral towpath of the stream.
2. The **abandoned industry building** of NASIOUTZIK and the attached bilateral towpath of the stream.
3. The **natural site** along the formation of Agioi Anargiroi valley as long as the embankment of the stream.
4. The **embankments** of the stream as a boundary between two residential areas.
